Co-op Availability: Jun-Dec 2026 | Open to Riyadh / Jeddah

SUMMARY

Unity gameplay & tools programmer (C#) focused on modular systems, strong game feel, and fast iteration. Head of the Game Development Committee (UQU Electronic Games Club): lead and mentor 100+ students, guiding teams to ship 8+ itch.io releases. Awards: 1st Place (Story Mode Game Jam); Top 5% (FishFest Fun).

EXPERIENCE

Head of Game Development Committee | UQU Electronic Games Club | Aug 2025 - Present

- Mentored 100+ students in Unity/C#; achieved 97.2% program satisfaction
- Guided teams from prototype to publishing on itch.io (11+ releases); planned milestones and coordinated tasks.
- Ran workshops on Unity/C# and game design; created documentation and templates.

Freelance Unity Developer | Fiverr | Mar 2025 - Nov 2025

- Delivered Unity gameplay features, UI, and interactive systems for international clients (C#, modular patterns)
- Improved player feel via Cinemachine camera/controls and feedback/VFX; iterated quickly with clients

PROJECTS

Finn - 3D Cozy Fishing Adventure | Lead Programmer | In development (Steam)

- Built a modular dialogue system with flag-based branching and animated typing effects.
- Implemented a customizable fishing mechanic with modular mini-games; reusable across scenes.

Easy Dialogue - Unity Editor Dialogue Tool

- Built a node-based branching dialogue workflow using ScriptableObjects and custom inspectors.
- Created an EditorWindow graph viewer + validation; runtime choices and persistence.

Two Moons - Narrative Card Game | Lead Programmer | 1st Place (Story Mode Game Jam)

- Narrative card battler built for rapid content iteration and balance tuning.
- Led programming for a 6-person team; shipped a polished jam release in 72 hours with modular systems.

TECHNICAL SKILLS

- Programming: C# (Unity), Java, Python.
- Game dev: Unity, URP, Cinemachine, TextMeshPro, ScriptableObjects; editor tooling (EditorWindow, CustomEditor).
- Workflow: Git/GitHub, Agile (Scrum/Kanban), PC/WebGL; Blender (3D), Aseprite (2D).

SOFT SKILLS

- Project planning and delivery: milestones, sprint planning (Scrum/Kanban), scope management.
- Backlog and execution: task breakdown, prioritization, estimation, tracking (Trello/Kanban), risk/issue tracking.
- Leadership and communication: cross-functional alignment, standups/reviews, documentation, stakeholder demos,

EDUCATION

B.S. Software Engineering | Umm Al-Qura University (UQU) | 2023 - 2027 (Expected) | GPA: 3.37/4.00

Relevant coursework: Data Structures & Algorithms, Software Engineering | Languages: Arabic (Native), English (Professional).
